

All children have  
the same rights and  
are equally worthy

Children´s convention of rights

The 14  
District  
Councils of  
Stockholm

**Information about social services work with unaccompanied minors (UAMs) in Rinkeby-Kista district council especially children in fostercare**

**Children arrive to our district  
to a relative or through the  
migration board.**

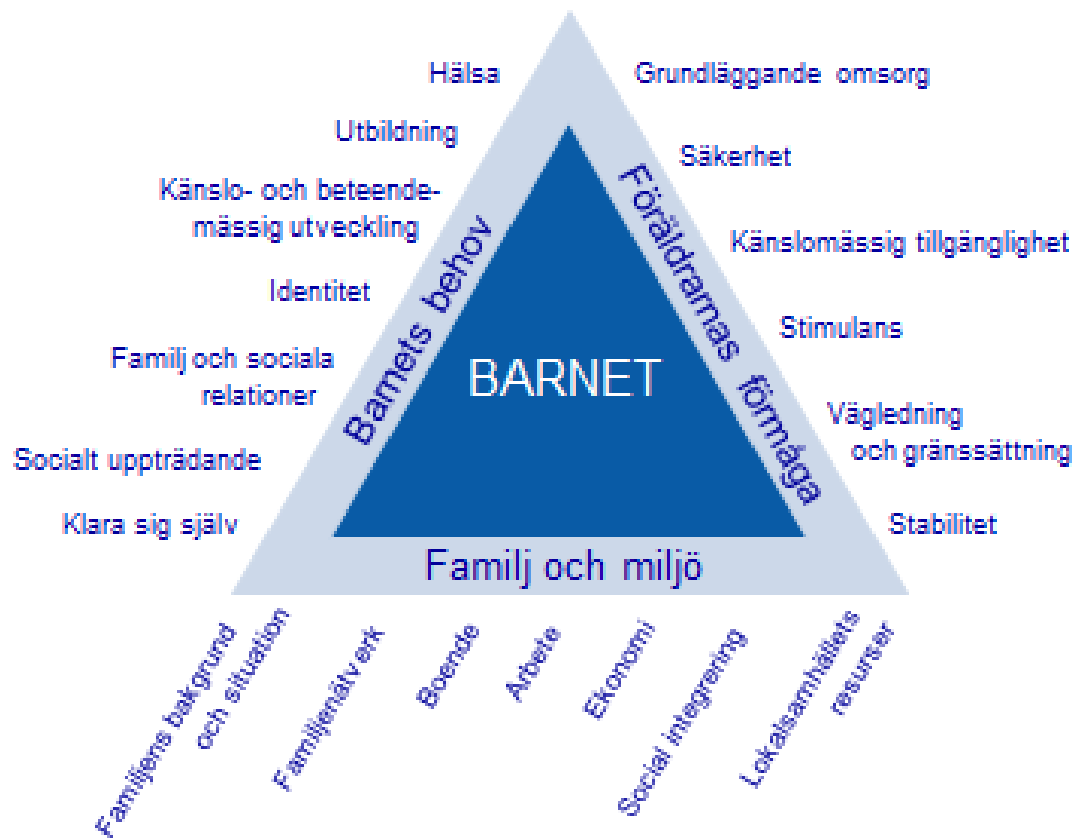

# Investigation

**A social investigation starts as soon as we get information that the child is staying in our area.**

**Investigation about the needs of the child**

**Investigation of the family, if there is a family that wants to be a foster family for the child.**

**Decision about where the child should stay during the investigation.**

# **When the investigations are ready**

**Formal decision of placement for the child in fostercare or supported housing.**

**Legal guardian when the child gets residence permit**

**The child in fostercare – the fosterparents are responsible for the daily care, they get money for expenses for the child, the social worker is responsible for the child's well being together with the legal guardian**

# Notables

**School is important**

**We have no special unit for UAM's, we treat them as we do with other children in fostercare**

**The fosterfamilies' qualifications – not always adequate but sometimes it is better for the child to stay in the family they know instead of being moved to an unknown family**

**Two social workers when a child is in fostercare – one for the child and one for the fosterparents**

**The child and the child's needs – always the most important issue.**

# Thank you for listening
