

European Migration Network

Overview of Ad-Hoc Queries

0. DISCLAIMER

The compilations provided here on the EMN website have been provided primarily for the purpose of information exchange among EMN NCPs in the framework of the EMN. The contributing EMN NCPs have provided, to the best of their knowledge, information that is up-to-date, objective and reliable. Note, however, that the information provided does not necessarily represent the official policy of an EMN NCPs' Member State.

The European Commission and the National Contact Points (NCPs), who collectively constitute the EMN, accept no responsibility or liability whatsoever with regard to the use made of the information provided in these compilations.

1. EXPLANATORY NOTE

This EMN activity is used to provide information in a relatively short time on a wide range of asylum- and migration-related issues of relevance to policy development both in an EMN NCPs' Member State and/or by the Commission. An attempt has been made to categorise the numerous queries into broad categories in order to bring together related queries on a similar topic, although one should note that there are often overlaps between these categories in a particular query.

The list of available Ad-Hoc Query compilations is given below, indicating to which broad category they have been placed.

It is **important** to note that the information provided in a compilation is **relevant to the date on which the request was made** and does not, therefore, take into account developments since that date. For example, recent events and/or subsequent changes in a Member States' legislation/practice might mean that the responses provided are no longer valid.

2. AVAILABLE AD-HOC QUERY COMPILATIONS
